

Snuff "Coming Through"

Visit "[Coming Through](#)" on MotoLyrics.com

There aint no high & dry
There aint no blameless exit
Best place where you like it
You'll find it where you left it
Nice try but no cigar
Then the black box kicked in
& someone shouted
"Get us out of here"
Cant somebody unravel
this nonsense
Someone else shouted
"Get us out of here"
Cant somebody unravel
this nonsense

Everyone was shouting
"Get us out of here"
Cant somebody unravel
this nonsense
it was up or out or out of the way
Cant somebody unravel
this nonsense now
Cant somebody turn off
this fucking headache

You decide
You decide
You decide

Heave away
There aint no high & dry
There aint no blameless exit
Best place where you like it
Then the black box kicked in
& someone shouted
"Get us out of here"
Cant somebody unravel
this nonsense
Someone else shouted
"Get us out of here"
Cant somebody unravel
this nonsense

Everyone was shouting
"Get us out of here"
Cant somebody unravel
this nonsense
it was up or out or out of the way
Cant somebody unravel
this nonsense now
Cant somebody turn off
this fucking headache

You decide
You decide
You decide
Heave away

Get up get out or
get out of the way
Coming through
