I can feel you breathing down my neck  
With every step I take  
The voice to echo round my brain  
To remind me

How to lose it all, open up a void, how to lose it all  
Always there breathing down my neck

Always one step behind me  
Always there to remind me  
I'll feel your arms around me  
I'll taste your blood inside me

Lose it all, open up a void, how to lose it all  
Always there breathing down my neck

Always there to remind me  
Always one step behind me  
I'll feel your arms around me  
I'll taste your blood inside me

Lose it all, open up a void, how to lose it all  
Always there breathing down my neck
