Six fours make ninety eight  
You're not gonna get it  
I was told but I left it too late  
You're not gonna get it  
I changed all the numbers I left behind  
You're not gonna get it  
It was easy to change my stride - so what?

I know what you want but you're not gonna get it...  
Sevens into fifty two  
You're not gonna get it  
I'll take fifty, you take two  
You're not gonna get it  
Don't look with those pleading eyes  
You're not gonna get it  
I might tell you - I might just lie - so what?
