"Small"

Close your eyes
Let the cold inside
It's time you realised that you are gone
Still alive
Only twelve foot five
Your head is in the clouds
What have you done?
Seventeen
Jesus where you been
A revolutions ending while you sleep
Gangsta man meets the Klu Klux Clan
But I'm no taller than your hands or feet
(chorus)
Ohhh Ohhh
Tomorrow we'll be even older
Ohhh Ohhh
But that won't stop you getting taller
Ohhh Ohhh
My life is in no special order
Just remember I was small
I can't believe
That you're dwarfing me
Maybe it's because I've got to small
No one cares
They walk around in pairs
Denying that they ever were alone
Truth is lies
You've only got one life
And sometimes it is shorter than you think
Someone cares
Someone knows you're there
You've only got to find the missing link
(chorus)
