What lived in me?
If it was me...
Who am I now?
Ooh... it knew you
You had the compass
But who do I know?
I'm moving on...
Moving on but why?
I don't know who started walking
Me, myself or I?

I can't feel myself
Anymore
I can't feel myself
Anymore

I'm your opinions and what you said
You and everyone else are living in my head
I'm empty now that you are gone
I'm not myself but everyone

I can't feel myself
Anymore
I can't feel myself
Anymore

Tide take me far away
I was born on the wrong day
Take me and my tent
And bury me in the sand

I can't feel myself
Anymore (no no no)
I can't feel myself
Anymore (no no no)
