I am not like other girls  
I don't breathe for some days  
I want you here and in my arms  
I can't just smile and turn away  
I have prayed from a distance  
Since you've been out of my reach  
I can't hold on to reason  
And practice what I preach  
In my dreams we're together  
There is no one else in my heart  
Love is stronger than leather  
You should have known right from the start  
I am not like other girls  
I don't breathe for some days  
I want you here and in my arms  
I can't just smile and turn away  
I have made my decision  
I will give in to you kiss  
I can't hide my emotions  
Pretend you don't exist  
In all my dreams we're together  
And I can't get you out of my head  
My love it floats like a feather  
But it falls if you forget  
I am not like other girls  
I don't breathe for some days  
I want you here and in my arms  
I can't just smile and turn away  
(I am not) I'm not your ordinary girl  
(I don't breath for Sundays) I'm not part of that society  
(I want you here) send me diamonds and pearls  
(Can't just smile) that aint doing it for me  
I am not like other girls  
I don't breathe for some days  
I want you here and in my arms  
I can't just smile and turn away
