I don't know what to do
Cause I've been missing you
And since you ran away
I feel like all my world is coming down
I don't know what to do
I made a fool of you
And now the only thing
That's written in my mind is coming down
Coming down
Coming down
I've missed you baby
Who can I talk to?
When you're not there
Who can I talk to?
Who can I talk to?
I wanna touch you
But you're not there
Who can I talk to?
I don't know what to do
I'm feeling sad and blue
Sometimes I wish
I never met you and I'm trying to forget
It should be easy to
That's what I used to do
But things are changin
Rearranging every little thing you said
In my head
The things you said
(Spins in my head)
Who can I talk to?
When you're not there
Who can I talk to?
Who can I talk to?
I wanna touch you
But you're not there
Who can I talk to?
I still remember when
I got the chills from the eyes that you sent
I still long for the time we spent
Nights like lovers days like friends
Used to think it would never end
(Girls like you turn boys to men)

Should have known that I was blessed
When your hair was upon my chest
Who can I talk to?
When you're not there
Who can I talk to?
Who can I talk to?
I wanna touch you
But you're not there
Who can I talk to?
Guess I was never meant to love you
Never meant to love you
Never meant to love you
Cause I was never meant to love you this way
