(Kenny Pickett/Eddie Phillips)

In the beginning  
Nothing at all  
Nobody was living  
Nothing had shown

Out of the darkness  
Bind the light  
A rowing commotion  
Made everything right

Creation came, creation came  
Creation came, creation came

Take me to Eden  
Show me the dream  
Bite off an apple  
The duo must leave

Creation came, creation came  
Creation came, creation came

I don't believe in the situation  
Jerking around for a new sensation  
We must travel cross the nation  
Looking around for a new creation

Creation came, creation came  
Creation came, creation came  
Creation came, creation came  
Creation came, creation came etc...
