Tom Callaway

"Nightmare"

I sit in my living room
Watching TV and eating
And all I can think about
Is you
You don't know
What I'm going through
This is the hardest thing iv ever had to do
And you don't have a clue
What I'm going through
So I'm going to tell you

Chorus
Everyday is like a nightmare
I wake up and your there
All I want to do, is to go back to bed
But then I'll see you there
Because your always in my head

I see you standing there
And I think to my self
I use to be yours
You flirt with me all the time
It's such a crime

When I eat my lunch
All I think about is you and your weird talk
Even when I get caught
All I think about is you

Every time I see a girl
With hair that's as yellow as yours
You pop into my head
Why you?
It's killing me
All I want is to be free

Chorus
Everyday is like a nightmare
I wake up and your in my head
All I want to do, is to go back to bed
But then I'll see you there

Because your always in my head

What do I do now I'm in love with you
I don't have a clue
You've turned me into what I didn't want to be
I think I should flee to the sea
That way I'll be free of you
However
Whenever I close my eyes I'll dream of you
Some nights when I'm alone
I'll cry, thinking of you
And I ask, what am I doing?
I feel like your pursuing

Chorus
Everyday is like a nightmare
I wake up and your in my head
All I want to do, is to go back to bed
But then I'll see you there
Because your always in my head

What do I do now I'm in love with you
I don't have a clue

What do I do?

Tell me
What to do

I can't be in love with you
After everything

Tell me
What to do
