30 minutes left on the clock
Life is begining to end
This sounds being drummed in your head
Tick tock tick tock
The notes on the table
Here comes the moment you dread
The bloods pounding in your head
The ropes in the stable

Chorus:
I had no choice
I had to leave then and there
You have now made the choice
You are gonna end it in

20 minutes until the shot
You see your reflection for 1 last time
All this because your not mine
In 20 minutes people will ask what?
The smell of death is at the door
You stare it in the face
You are gonna end your race
You could have so much more

I had no choice
I had to leave then and there
You have now made the choice
You are gonna end it in

10 minutes until the scream
The peace will break
There is to much at stake
I wouldnâ€™t even dream
It would end like this
You are scared
You was not prepared
For life to take the piss

I had no choice
I had to leave then and there
You have now made the choice

You are gonna end now

The sound of a gunshot

The kick of a chair

The thud on a table

It has ended now

No one was with you

When you needed them most

I had to leave you

It was not for some one else

I can't believe what happened

The guilt's eating me up inside

With trembling hands I the note

And now you have the silent comfort

Of death
