Dorule, dor

Dorule, dor

Memories of she ever said  
You play like a drum inside my head  
So now I got none better thing  
Than follow you, I'm glad you'll lead

I'll be rocking them beats, here we go music hits  
You see I'm dropping the beat and I want you to be  
I'll be rocking them beats, here we go music hits  
I got you, please forget all you miss

Give me wings to fly for the pain of fear  
Make me feel alive and inspire me

No other sound is quite the same  
As your voice, that is to say  
Let me cap that atom bomb  
And get a beat that bounce and pounds

I'll be rocking them beats, here we go music hits  
You see I'm dropping the beat and I want you to be  
I'll be rocking them beats, here we go music hits  
I got you, please forget all you miss

Give me wings to fly for the pain of fear  
Make me feel alive and inspire me  
Dorule, dor

Dorule, dor, tu Ã©mi iaÈ™i fiori  
Dorule, dor, te-ai mÃ©frit sÃ©f zbor

Give me wings to fly for the pain of fear  
Make me feel alive and inspire me  
Give me wings to fly
