Fuck you, yes I am the enemy  
You never knew it now you do so what you say it's  
nothing new  
I guess you didn't hear how much this means to me  
So let me say again let me put it on your screen  
Fuck you, yes I am the enemy  
Perhaps that time it was a little easier to hear  
Fuck you yes, I am the enemy  
The second time was just in case your thoughts were  
never here  
So now you say were friends, you always say we'll be  
It doesn't matter that you never did know me  
Quick think hard, quick think fast  
The words you seem to speak  
Are drifting to the fucken past

Sit down, sit down, sit down  
Don't you lecture me  
Sit down, sit down  
Don't you know I am the enemy?  
Sit down with me, I don't think that you will  
Because now watch, the enemy will hold you up  
Your his thrill  
Your his kill

Fuck you, yes I am the enemy  
The phrase is back again I guess it never left when I  
started  
To slur and sing the other verse  
Perhaps you forgot, no despair lets rehearse  
Fuck you, yes I am the enemy  
Now lets see if all of you can say it right with me  
Fuck you, yes I am the enemy  
Now theirs no excuse about what else it could be  
And now it's just about to the final end  
We still have not figured how you were my friend  
Quick think hard, quick think fast  
As far as friendships go I don't think this is going to  
last

Just try it

There'll be nothing left I'm the one who wrecked  
I'm the one who wrecked

Just try it
