[Big Punisher]

Yeah.. 6430.. Ty Fyffe where you at?

Aww shit.. smooth it out

Where my chick tonight? Thug style

Knock em out Pun!

I pull your motherfuckin plug like a thug's supposed to

Hold a loaded toast, who want the pistol smoke

cause I'll initial on my shoulder holster

You know the culture when it's East coast, we run the streets most

Who want beef? Turn your peeps into meatloaf

You know the steez, when it's murder in third degrees

We reserve the breeze, and move with the wind like birds and bees

Word to G's, Christ I'm nice, g'head roll the dice

You know the price, your kid and your crib, like I'm

+Poltergeist+

I'm cold as ice, control your life with the mic

and then take your crown, break you down like liquid nitrogen

Invite your men, I strike your chin while you rappin

If you're on some thug shit, fill my clip and start clappin

Make your heart flatten, stop actin retarded

All you flea hearted villains, build your rhythm over restart it

The streets are God and heavenly, where the vinyls doubles

forty-fives and shovels ready in the five livest boroughs

[6430] Who is a thug? Are you for sure?

[Pun] Big Pun baby, I'm a thug for life

I'm a thug for life, I'm a thug for life

[6430] Who is a thug? Are you for sure?

[Pun] Aiyyo my word is bond, long as I'm alive I'ma put it on

Coulda gone legit shit, thug nigga til I'm gone

[Big Punisher]

Yo, I'm a thug to the heart, bugged from the start ever

since a child
I've been livin wild, chillin with illest crowds
Splittin thous' on my connect in the street
Twenty-percent protection, expected at the end of the
week
Never we sleep, a thug doesn't rest
Cause a wise man said, it was a cousin of death
If it wasn't the stress, it was one to your chest
There's many ways to die, in the slums when you
stressed
But not me, Big P, cause I'm the son of the devil
Run up in your cribbo and suffocate your son with a
pillow
You know I'm comin to kill you when you hear the heavy
breathin
Give you a wedgie deep ?? with a butcher machete
greetin
Thinkin of Madison Square, I'll battle you there
Carry you clear 'cross the planet just to challenge you
here
Embarass you where it hurts, and sandwich you in a
hearse
God sent you with a curse, that's why your parachute
didn't work
Dead in the dirt (yup) with the bugs and the mice
That's the price, frontin like a thug for life

[6430] Who is a thug? Are you for sure?
[Pun] Big Pun baby, I'm a thug for life
I'm a thug for life, I'm a thug for life
[6430] Who is a thug? Are you for sure?
[Pun] Aiyyo my word is bond, long as I'm alive I'ma put
it on
Coulda gone legit shit, thug nigga til I'm gone

[Big Punisher]

Yo, me and my man are plannin to handle these two
broads
Thought he was Rambo a vandal his brand a Lambor'
Countache
with ammo that scrambled his brains and luxury ducats
Harder with somethin hard to sharpen
in the driver's box of the glove compartment
Rotten lowdown dirty sheisty kind of conniver

Ex nine-to-fiver, ready to die as long as I'm the driver
Supplyin buyers of flyers in bundles stacked dope
Humble prices on ices twice as nice as crumbled crack
coke
I hope it lasts long, word bond, I bring my brothers with
me
Definitely, and start off my own thug committee
