Verse 1:

Baby, i know you understand, (I'm doin' the best I can)
I'm just tryin' to be your man, (I'll always watch your
back for you)
How many reasons things have changed, (And nothin'
even feels the same)
Tell me how we got this way,
How did we get to this place.

Bridge:

I never in my life thought that we'd end up this way,
Cause I was just so in love with you,
And now it feels so different,
Like everything has changed,
Shorty why can't we talk about it,
I don't know what to do. (What to do)

CHORUS:

Cause we don't even talk anymore, (No, we don't)
And I'm feelin' so much different than before,
And it feels like my whole life is crashing down,
But you know, (I still love you)
I won't let you go.

Verse 2:

I never know what to expect,
How bad are we gonna let this get,
You never listen to me ever,
I try to talk this out with you,
It's hard to just give up on us,
But relationships are built on trust,
How much should I really wait,
How did we get to this place?

Bridge:

I never in my life thought that we'd end up this way,
Cause I was just so in love with you,
And now it feels so different,
Like everything has changed,
Shorty, why can't we talk about it,
I don't know what to do. (What to do)

CHORUS:

Cause we don't even talk anymore, (No, we don't)
And I'm feelin' so much different than before,
And it feels like my whole life is crashing down,
But you know, (I still love you)
I won't let you go.

If we stop for a minute,
Just to talk for a minute,
Baby you and I can somehow and try to get where we
used to be,
Changes are needed,
Can you be more understanding,
Don't you cry, (All of this is killing me)

CHORUS: X2

Cause we don't even talk anymore, (No, we don't)
And I'm feelin' so much different than before, (Feelin'
so much different)
And it feels like my whole life is crashing down,
(Crashing down, girl)
But you know, (I still love you)
I won't let you go.

Ohhh,
I never in my life thought that we'd end up this way,
Cause I was just so in love with you.
