Highs and lows feels like I'm wrecked again  
Valleys downs I need some fun instead  
My television doesn't help for me to settle in

And this morning ate my glory  
But I'm still making it

In two weeks my low will start to bend  
A giant slumber  
I'll be older then  
It's far too long to walk alone  
Yeah I'm glad I've got my friends

And this morning ate my glory  
But I'm still making it  
The road is cold from what I hear  
And I'm not changing it

And this morning ate my glory  
But I'm still making it  
The road is cold from what I hear  
And I'm not changing it

And this morning ate my glory  
But I'm still making it  
Cause I'm not changing it  
Cause I'm not changing it  
Cause I'm not changing it  
Cause I'm not changing it

So Hold on  
So Hold on  
So Hold on  
So Hold on
