"Everything's Fine"

Nothing comes out
I can't explain anything
Cause I don't feel a thing now
Everything's fine
Why do you keep asking me
I said I don't feel a thing
Why should I anyhow?

[Chorus]
Everything's fine
Everything's clear
Leave me alone
I don't need anything
Woah I can't fake it
Woah I can't take it
Everything is so confusing
Woah I can't fake it
Woah I can't take it
Everything is so confusing now

No one is scared
They've got no reason to be
Live perfect harmony
Stuck in the middle upper class mentality
Download a reality
It's hard

[Chorus]
Everything's fine
Everything's clear
Leave me alone
I don't need anything
Woah I can't fake it
Woah I can't take it
Everything is so confusing
Woah I can't fake it
Woah I can't take it
Everything is so confusing now

Don't even listen to me
Cause I've got no selfesteem
You may think it's the other way around

I'm pretending too it's ok
I'm pretending too

Woah I can't fake it
Woah I can't take it
Everything is so confusing
Woah I can't fake it
Woah I can't take it
Everything is so confusing

Nothing comes out
I can't explain anything
Cause I don't feel a thing now
Everything's fine
Why do you keep asking me
I said I don't feel a thing
Why should I anyhow?
