### "Love Me Tonight"

Visit "[Love Me Tonight](#)" on MotoLyrics.com

I'm a counter-culture, sex avenging angel, looking at  
you  
I'm an antisocial, pro-created being  
I've got an aversion to the trends now, of mediocrity  
Please allow me this discourtesy

I'm a low-brow abrasious survivor, from your wicked  
past  
I lurk the streets, late at night  
Ain't got time for idle conversation, I'm the silent one  
Don't wanna pretend cause that ain't right  
It ain't right

Love me tonight  
Gonna be alright  
The things I know just can't be learned in school  
I'm all alone, so far from home  
We'll do the things you said you'd never do

Don't ask me why I'm separated, from the rest of the  
world  
I grew up fast, hit me on the ground  
Some people hate me, some they love me, if you know  
what I mean  
Consider this girl if you're comin' round  
Comin' round

Love me tonight  
Gonna be alright  
The things I know just can't be learned in school  
I'm all alone, so far from home  
We'll do the things you said you'd never do

Love me tonight  
Gonna be alright  
The things I know just can't be learned in school  
I'm all alone, so far from home  
We'll do the things you said you'd never do
