Feel only broken legs and razor blades
No subtleties to stimulate my body is numb I need a
strong drink
And Ive followed down the hole
And Ive followed down the hole

Because we won't be caught in it
Yeah we won't be caught in it
Yeah, we've made it this far
And barely faded at all

Thought about it, the big leap the big cheat
Rocks will hold me down until I drown
The whole time screaming
And Ive followed down the hole
And Ive followed down the hole

Because we won't be caught in it
Yeah we wont be caught in it
Yeah, we've made it this far
Barely faded at all

Monday morning well be bugging out
Let's run away and not get found and leave this town
No more worries just you and me
Well go get lost and stay that way
And Ive followed down the hole
And Ive followed down the hole
Because we wont be caught in it
Yeah we won't be caught in it
Yeah, we've made it this far
And barely faded at all

Because we wont be caught in it
Yeah we won't be caught in it
Yeah, we've made it this far
And barely faded at all
