I'm rollnig like a freight train  
I'm coming off the tracks  
I'm not stopping for anything  
So try and catch me if you can

I've been spinning around in this crazy head  
And getting nowhere fast

I've got nothing  
I've got nothing left to lose

You're a sentimental hurricane  
In love with your old ideas  
I've been standing in your pouring rain  
I haven't been dry in years

I've been spinning around in this crazy head  
And getting nowhere fast

I've got nothing  
I've got nothing left to lose

Finally got my feet on the road  
Heading no direction but the signs say go  
Anywhere will do  
Anywhere away from you

I've got nothing  
I've got nothing left to lose X2

(Air guitar!)  
[Guitar solo]

I've got nothing  
I've got nothing left to lose X4

(I've got nothing left to lose)
