"When The Angels Sing"

Visit "[When The Angels Sing](#)" on MotoLyrics.com

At last we meet again dear God, Hear the angels sing.
The funerals are nicer when we know you're there,
when the angels sing. Sometimes I try so hard to
understand the things you do Who am I to question you
when it all comes down? Hear the angels sing

Chorus:

Stand up strong feel the pain! When the angels sing.

The prisoners pray when they're on death row, hear the
angels sing The junkie cries for love but it's all run out,
when the angels The sins of the world, and it's cold on
the streets when you're all alone. And the tears they
start to fall when it all comes down, hear the angels
sing.

Chorus:

Stand up strong feel the pain! When the angels sing
Love and death don't mean a thing 'til the angels sing
Little by little day by day I watch the children play
'cause life and death don't mean a thing! 'Til the
angels sing!

When the "Angel of Death" comes lookin' for me, hear
the angels sing, I hope I was everything I was supposed
to be, when the angels sing There's got to be a Heaven
, cause I've already done my time in Hell. And a little
baby's born when it all comes down Hear the angels
sing

Repeat Chorus
