I'm sorry for the way
We started out yesterday
I don't know how we lost control
Information overflow

The world is a pretty place
If you have a pretty face
Ready made you're all the same
As everybody else is in the world
In the world, in the world
They got you saying

You and me we will sing through this song
And we're not gonna stop until they all sing along
You and me we will sing through this song
And were not gonna stop until they all sing the song

My dog found himself today
Leash in hand he walked away
He's barking out obscenities
Cause he had lost your sanity

The world is a pretty place
If you have a pretty face
Ready made you're all the same
As everybody else is in the world
In the world, in the world
They got you saying

You and me we will sing through this song
And we're not gonna stop until they all sing along
You and me we will sing through this song
And were not gonna stop until they all sing the song

In the world, in the world, in the world
They got you saying

The world is a pretty place
If you have a pretty face
Ready made you're all the same
As everybody else is in the world
In the world, in the world
