You work hard now, to put the food on the table

Your workin for the man, who don't even know your name!

That's the way that it goes when you're down here  
with the rest of us!

You might lose now, your beautiful children

Your happy home yea, and your beautiful wife!

You'll suffer hard now as you bury your loved ones

You'll suffer hard now, when you lose your best friend!

That's the way that it goes when you're down here  
with the rest of us

That's the way that it goes and I know how you feel

No one's immune now, to a world of problems

No one's exempt now, from worlds of pain!

I try hard now, to do the right thing

Yet I wonder, why I still do what's wrong
