I don't care what they say
I wanna come out & play

When I walk the dirty streets of Orange County
The coppers out lookin' for the next corrupt bounty
Junkies on the corner beggin' for the next fix
Mother's on the corner turnin' trix

I don't care what they say
I wanna come out & play

Yeah I lived a rough life
and I have fallen
Cut my wrists with my switchblade knife
but I heard my God callin'

No more wastin' away the years
No more shedin' filthy tears
No more feelin' sorry for myself
It's time I step up and lick my wounds and welts
I don't want to be who I used to be
My Lord has opened my eyes, so I may see

I don't care what the others say
I wanna neal down and pray
