Nothing she can do, She's so confused  
Something should be done, But she'll refuse  
She's got a new fix, to ease her pain  
She's got a new fix, to control her brain  
Oh, no no no mainliner, mainliner  
Out of frustration, she unwraps the foil  
Takes out her spoon, starts to boil  
She used to be pretty, To all her friends  
But the hypodermic needle  
Took her to the end  
Oh, no no no mainliner, mainliner  
She's boiling up, always in heat  
Stick it in again  
Just to keep her beat  
This time she'll try a little more  
This time we found her on the floor  
Oh, no no no mainliner, mainliner...
