Mike Ness/Dennis Danell)

The sound of a neighbor's barking dog  
The high prices of gigs today  
I ordered a meal not an insult  
I have nothing else to say

Something's gone wrong with my bike again  
That girl's attitude is hurting my head  
Where am I supposed to draw the line?  
Can they play that song just one more fucking time?

Someone scratched my favorite Stones LP  
My boss says that I'm a little slow  
These people, places and things just aren't going my  
way  
I got in a fight at the liquor store  
Situations that I can't control

My neighbors are making too much noise  
-----My  
girlfriend's not acting the way she's supposed to be  
With a little time it'll all work out fine
