I'm falling down into my shadow
Grasping onto every breath
As I await the Deadly night

So scary, but you can't give into this
Fear of pumpkin carriages
'Cause all the witches see it in your eyes

See you in your dreams, yeah, baby
Your nightmares too, that's where I'll find you

Fairy blue
It is only for you
That I would crush the stars
And put them on display
Black Paper Moon
If you really put your faith in me
When you're lost, here I am
"forever" with your soul
Waiting here above you patiently,
Just like the shining moon

A symbol rises to the surface
Of the crimson sweetness that I had submerged it deep
within

Your destiny isn't so immutable
Anything that you can dream
Can also be the fate that you will have

Don't try to use deceit on me
I will not break, I won't surrender

Fairy blue
You are my everything
The reason I go on
In this captivity,
Eternally
If you raise your voice and call for me
I will find you, my dear
Wherever you may be

And I will be sure to set you free from this ensnaring
curse

There are times when noone believes in me and
There are times where I feel like I'm degraded
But even in those times your words always echo within
My heart
This is my promise

Fairy blue
It is only for you that I would smash the stars
And use them as a sign
To guide you
And any time that you're lost or afraid, or you can't see
your dreams,
I want you to look up

And Fairy blue
You are my everything
The reason that I live
In sweet captivity so faithfully
And I swear you'll never be alone
When you're lost, here I am
Forever with your soul

We can make it through most anything, if you can just
believe
