"Come On Down"

When she walks; testing the ground like she doesn't
believe her eyes.
When she smiles, she manage to catch you up in her
own mood.

(chorus)
Didn't mean to act untouchable,
unreachable to you.
But it's funny how you get your way
just like a little child.
But the games are over now...
and it's time to come on down,
it's time to come on down.

In her eyes there's no such thing as behaving
affectedly.
When she cries, she manage to catch you up in her own
mood.
