

Crest, The "Moument"

do you see the shape of silver limbs
can you face the
twisted wings
the loved ones, the fire
eternal desire
go deep and search for my soul
this body's carved out of stone

carousels of decadence and art
all too precious
broken heart
forsaken - forgotten
courageous and frozen
go deep and search for my soul
this body's carved out of stone

alliance of my heart
monumental sermons to keep us worlds apart

sculpture face
a twisted dream
the loved ones, the fire
eternal desire
go deep and search for my soul
this body's carved out of stone

alliance of my heart
monumental sermons to keep us worlds apart
do you understand the alliance of my heart
monumental sermons to keep us worlds apart
