welcome to my castle under water
counting you the triads is complete
in black and blue our home reflects
the beauty of the night
the captain wants to see you
come along

nine thousand fathoms
the escape is complete

triangle

welcome to the inner halls of triton
nemo here has got the expertise
let us bond with whales so they can
keep us entertained
the air is thick but boredom
hits the brain

nine thousand fathoms
the escape is complete
blue magic sparks
in the air that I breathe

triangle
