Oh

Black clouds arise and surround  
The righteous men and their thrones  
Swarms of pestilence  
Breaking the horizon

Ready to fill their bodies  
With the flesh of the  
Dead

With the flesh of the...

Let their voices call  
For their heroes  
Liberators set on  
Annihilation of your morality  
Bring them to their knees

The false pretense  
Can only carry  
You so far before it shatters  
Leaving all the self inflicted  
Misery exposed for all to see

Go mold them  
With your words  
The signs will point to  
No consent

When the will fails

Then so does  
The cause you  
Gave your life for

The only cage you've built  
Is your own

Accept the lies you're given  
And never question  
The words they force fed

The young and innocent

Let their voices call  
For their heroes  
Liberators set on  
Annihilation of your morality  
Bring them to their knees

Bring them to their knees!

Bring them to their knees

The righteous  
And their legions  
Will take power  
Over all you love

The righteous  
And their legions  
Will take power  
Over all you love
