I'm gonna push the button flick the switch today  
But you got nothing I want  
I got nothing to say  
It's been 16 days since I've seen your ass  
Heading to the city  
You think your high class

A harmonic generator intermodulator  
A harmonic generator intermodulator

Wearing next to nothing she's out of control  
She likes to shake what she got from her head to her  
toe  
She got big yellow eyes lighting up like Christmas  
Turning tricks baby  
Electric Mistress

A harmonic generator intermodulator  
A harmonic generator intermodulator

A harmonic generator intermodulator  
A harmonic generator intermodulator

Come on let's shake it down  
Like that harmonic generator  
Here we go I said...  
Yeah, yeah, yeah..
