"System Overload"

Visit "[System Overload](#)" on MotoLyrics.com

Well things are mounting up
It's counting down set to blow.
It's no use pretending
See the blue sparks the final mode. Oh.

Countdown to explode
System overload.

Countdown to explode
System overload.

Atomic schemes in the bloodstreams they bankroll
Apologies to the dreams that have all been undersold.
There's silicone, silver chrome
Panic stations to the X-ray bones.
Bar codes grinning so the cogs spin
What a powder keg for the poor post everything

Countdown to explode
System overload. (Overload).
Countdown to explode
System overload. (Oooooohhh).

Hey, Hey.

Sparks spitting, this toy can sting
Well it's a powder keg for the poor post everything.

Countdown to explode
System overload. (Overload).
Countdown to explode
System overload. (Overload).
Countdown to explode
System overload. (Overload).

Countdown to system Ooh.

(Overload, overload, overload,
overload, overload, overload).
