[Tommy Tee]

There's this thing that's been on my mind
All the time, St St Studio oh oh
Everybody knows all my game
You're really not the same
And it's the studio oh oh

Ah when Tee calls me I'll be there
I'll come running from anywhere
It's all I need, all my life
I feel so good if I just say the word
St St Studio, I just say the word, oh
St St Studio

I know that you're too young
Your life has just begun
And it's the studio
Ooh give me a chance, give me a sign
I'll show you every time
And it's the studio oh oh

Ah, got to have it, have it now
I've got to get closer and I sure know how
Things makes me nervous, makes me scared
But I feel so good if I just say the word
St St Studio I just say the word, oh
St St Studio

Ah when Tee calls me I'll be there
I'll come running from anywhere
It's all I need, all my life
I feel so good if I just say the word
St St Studio, I just say the word, oh
St St Studio, oh
Oh oh
