Spill it all over just like you used to
Reason to be strong
But you don't like me, but you don't even know me
I will save me, I will save me

Please fight for me
Please fight for me
Please fight for me
Please fight for me

Shut down in another light in a hole not yet sewn
Words that made you sickened inside
But you sucked down in a steady strife
And you bleed without halo
I can tell now, I can tell now

Please fight for me
Please fight for me
Please fight for me
Please fight for me

Shut down, you don't know us all
Shut down, you don't know us all
Shut down, you don't know us all
Shut down

It's all inside, so far
It's all inside, so

One more word, I'm asking you to come and get it
One more word, I'm asking you to come and get it
One more word, I'm asking you to come and get it
Come and get it

Don't want to wake up and kiss it goodbye
You don't want to wake up and kiss it goodbye
You don't want to wake up and kiss it goodbye
Kiss it goodbye, kiss it goodbye, kiss it goodbye

Please fight for me
Please fight for me
Please fight for me

Shut down, you don't know us all
Shut down, you don't know us all
Shut down, you don't know us all
Shut down

It's all inside, so far
It's all inside, so far
Inside, so far
Inside, so
Inside of you, so far
Inside, so far
