

## Socratic "Dead For Days"

Oh my God I feel so bad, could you understand, would you let me hold your hand? And pretend, that I'm the only person that you'll ever talk to. Is it safe to say? That we feel the same way? If it was up to, I'd be with you right now. Why are you so beautiful? Everyday I don't see you, might as well be my funeral. I thought about forgetting you, but I also thought about losing my heart. Oh I had such a bad day, if I could see your face everything would be ok. I can't help but feel this way. You won't see the, you won' see the sunset feeling alone again.
