"Happy's Just A State Of Mind"

Visit "[Happy's Just A State Of Mind](#)" on MotoLyrics.com

Happy's just a state of mind
And a state of mind is just electrical impulses

So don't base your life
On something you can't control
You always tried to control it
But it's just so hard to do
So forget about it and live your life cool

The sun is just a state of sight
And a state of mind is just electrical impulses

So don't base your life
On something you can't control
You always tried to control it
But it's just so hard to do
So forget about it and live your life cool
