With your knife and your bottle and your silver spoon  
No one knows what you're gonna do  
So stay away from everything that isn't true  
'Cos when I hung around with someone else  
Take your anger off the shelf  
And arrange it in a way that no one else could do  
But you

'Cos if you're dying I'd like to know  
And if you're on one I need to show  
'Cos you were saying you was alone  
Well there's something you need to know

I'm sixteen and I'm really bored  
"But we're not gonna use you and we're just scared  
we're gonna lose you"  
Things are better when you are on board  
I'm sure

'Cos if you're dying I'd like to know  
And if you're on one I need to show  
'Cos you were saying you was alone  
Well there's something you need to know  
That you will always be my hero  
With the way that you're letting go  
And you were saying you was alone  
Well there's something you need to know ...

La la la la la la la la
