Well I've been drinking for days and I'm happy to say  
That we've been leading you on so you'd do it our way  
You've had a little success but aren't too hard to  
impress  
So raise your standards, change your number  
It's for the best

And though I don't want you to stay  
There's something about the way that  
You say the words that you've rehearsed now  
I think I should explain  
Things aren't gonna change  
And last October when it took over  
The boy was grabbed by his new controller  
I'm shifting all the blame  
But I still feel the same

I didn't know what to say when I saw you alone  
You say you do what you want but you do what you're  
told  
I fell in love with your gaze, I fell in love with your name  
We need to know what to say if we're playing your  
games

And though I don't want you to stay  
There's something about the way that  
You say the words that you've rehearsed now  
I think I should explain  
Things aren't gonna change  
And last October when it took over  
The boy was grabbed by his new controller  
I'm shifting all the blame  
But I still feel the same, yeah

And though it makes no difference I still know that  
It's got nothing to do with the way I am around you  
It's got nothing to do with the way I am around you
