Enlightening charmer, sent from where  
A Casanova, lovely glare  
And I was chosen, I was there  
The wells get deeper, more unfolds  
And at the bottom, there she goes  
But wells are endless, I've found more

Flowers candy flirty late nights  
On the speed dial, that was you too  
Dinner movie sweet heart kisses  
He don't dance, but tangles with two  
I thought you plus me divided me from him  
But I discovered, many more and again again

And you don't know, you fill many spaces  
And she don't know, she's one of many lies  
And he don't know, how he stole many places  
And we all know, we can't fix him if we tried  
I would've been the one

I held the title, wore the crown  
I was the trophy, while you ducked down  
And she was cool with just fooling around  
(Yes she was, yes she was, yes she was)  
Now number four was there to ride  
And five was crazy, his wild child  
And when we're rocky he calls number nine

Flowers candy flirty late nights  
On the speed dial, that was you too  
Dinner movie sweet heart kisses  
He don't dance, but tangles with two  
I thought you plus me divided me from him  
But I discovered, many more and more and again

And you don't know, you fill many spaces  
And she don't know, she's one of many lies  
And he don't know, how he steals many places  
And we all know, we can't fix him if we tried  
I would've been the one

I was the one, yes I was the one  
And yes that was my name  
Inked up on his arm  
And if he loved me that much  
and still did me wrong

You feeling sorry, but you are holding on

I was the one, yes I was the one  
Key word is was, yes I was the one  
I figured out he was empty on my own

He had to find the answer  
in something or someone

And you don't know, you fill many spaces  
And she don't know, she's one of many lies  
And he don't know, he stole many places  
And we all know, we can't fix him if we tried  
I would've been the one

Do do do doo do do  
I would've been the one
