Incubation of a mental disease  
Transpiration of a spiteful liquid  
Coming to terms with the devil  
Threatening like the reaper in a saddle

You sow the seeds of discord  
You'll reap the fruits of death

He learned to dominate the gamesmanship of war  
An outrage, cynic for us all  
You are a rusty nail in our coffin  
The world's reminding exhibition

One man's meat is another one's poison  
So kill yourself with tears of joy  
We'll never accept to bite the dust like this  
Got a mighty weapon to defend us
