### "Evenout"

Expression is by sometimes consequence  
Little more than common sense again  
I watch you all build up the fall  
Of my betterment  
With greener grass  
But taller fence  
Get us some confetti here  
We had us a banner year

I see your garbage  
Close to your common sense  
When in doubt  
You gotta throw the whole thing out  
Even it out

Hold me in the balance  
Hold your breath  
Running from nothing  
Scared to death  
You say your controller's broken  
Can do nothing at the moment  
We balance out  
Lower the scales and take the ride down

I see your garbage  
Close to your common sense  
When in doubt  
You gotta throw the whole thing out  
Even it out
