You say it's not like you to let someone like me in too deep.

But now you spoke to soon cause I'm here with you, And we're sinking down in 123.

You've got a plan, I know what you're thinking. Just take my hand, And don't ever leave me. Hey! I'm ready to go right now.

We're safe and sound, but I can't stop now. I'm here forever and always. Don't make a sound unless you heart turns around. I'm here forever and always.

I'll leave it up to you, but what can I do if you ever leave? If I take it slow, then I let you go, but I can barely breathe.

Just give me something, any hope to still believe. Just give me something, all I need is just a reason.
