You're like my angel, fly away  
You're like a mountain in my way  
You're like my reason to be dead  
That's what I said

You're like my angel fly away  
You're like a mountain in my way  
You're like my reason to be dead  
That's what I said to you

Right up your face  
Right up your face

I walked around my whole life waiting for Mr. Right  
I was supposed to know him momentarily  
He might be that boy 'round the corner to my house  
Or the flower boy from the shop next door  
Or maybe that stranger down the street, one block  
The key to my unlock

So I turned and I burned my memories  
Of my last life, old pieces of myself  
And then I promised, I'll never be back again  
I can do a lot better than what I've done before  
There's nothing to stop me 'cause I want more

Only one moment gone from when they last took place  
Inside my head those fantasies my mind embraced  
Like a hug from a person that I care for  
But sensitive and therefore I pull back inside my shell  
Once more, must find the way outdoor

So I turned and I burned my memories  
Of my last life, old pieces of myself  
And then I promised, I'll never be back again  
I can do a lot better than what I've done before  
There's nothing to stop me 'cause I want more

I'm running away from my old hell  
Escaping from a possessed cell of dark and death  
I no longer feel shocked from disrespect  
All my hate is gone and that's a fact for you

Right up your face  
Right up your face

You're like my angel, fly away  
You're like a mountain in my way  
You're like my reason to be dead  
That's what I said

You're like my angel, fly away  
You're like a mountain in my way  
You're like my reason to be dead  
That's what I said to you

(Right up your face)  
Memories of my last life  
(Right up your face)  
I'll never be back again  
I can do a lot better than what I've done before  
(Right up your face )

And I burned my memories  
Of my last life, old pieces of myself  
And then I promised, I'll never be back again  
I can do a lot better than what I've done before  
There's nothing to stop me 'cause I want more

You're like my angel, fly away  
You're like a mountain in my way  
(Right up your face)  
You're like my reason to be dead  
That's what I said to you

You're like my angel, fly away  
You're like the mountain in my way  
(Right up your face)  
You're like my reason to be dead  
That's what I said to you

You're like my angel, fly away  
You're like a mountain in my way  
(Right up your face)  
You're like my reason to be dead  
That's what I said to you

You're like my angel, fly away  
You're like a mountain in my way  
(Right up your face)
