Know the moment when you're just to wake
But a part of you is still asleep
And your dreams are open to give and take
Then love has caught you wide and deep
Saying feel my hunger, I'm your destiny
If you can face my wonders, then your dreams are
meant to be

Like the sun will rise and fall again
I wanna be the only one
Like we give and take and give again
I wanna be the only one, gonna be the only one

I could tickle off a whispered dream
In my ear, your sweetest fantasy
Became a reason to believe that love is calling
Saying feel my hunger, I'm your destiny
If you can face my wonders, then your dreams are
meant to be

Like the sun will rise and fall again
I wanna be the only one
Like we give and take and give again
I wanna be the only one

Through rain and shine and days and nights
I dare the world, so come what might
There's nothing out there strong enough
To break this dream apart
Gonna be the only one

Lovers have no lovers rules
No easy roads to go
And loving makes us lovers fools
But I see what they know

Like the sun will rise and fall again
I wanna be the only one
Like we give and take and give again
I wanna be the only one

Through rain and shine and days and nights

I dare the world so come what might
There's nothing out there strong enough
To break this dream apart
Gonna be the only one
