I wanna destroy you  
I wanna destroy you  
I wanna destroy you  
I wanna destroy you

I feel it coming on again  
Just like it did before  
They feed your pride with boredom  
And they lead you on to war

The way you treat each other  
Really makes me feel ill  
'Cause if you want to fight  
Then you're just dying to get killed

I wanna destroy you  
I wanna destroy you

A pox upon the media  
And everything you read  
They tell you your opinions  
And they're very good indeed

I wanna destroy you

And when I have destroyed you  
I'll come picking at your bone  
And you won't have a single atom left  
To call your own

I wanna destroy you  
I wanna destroy you

Wanna destroy you  
Wanna destroy you  
Wanna destroy you
