"For Everyone"

The gig and music already starts
And the only thing that I see
So many children arriving
In their brand new nice cars
It is supposed that our ideas fight against the profit
I think nobody here really comes from my humble
village

Because of the fucking suckers which
Make money with music
This situation makes the scene
Not for everyone

The gig and music already start
And the only thing that I see
So many bands only showing off
With their expensive guitars
It is supposed that our ideas fight against the rockstars
It is supposed that our music really is for everyone

Because of the suckers which
Make money with music
This situation makes the scene
Not for everyone

What do you think about this situation?
I just wanna make this kind of music free for everyone
For everyone
