"One Last Song"

Take a listen to your whole world
Can you hear the screams?
All alone i wonder
How much longer, is there time for me?

One last song
I want to give this world
Before it's gone
One last song

I don't think we learned a thing
Our history repeats
Will we heed these lessons?
Slit our throats and watch us bleed
Is there time for me?

One last song
I want to give this world
Before it's gone
One last song

Why can't we? When will we?
I don't think we want to learn
We won't be fucking happy
Until we destroy it all

One last song
I want to give this world
Before it's gone
One last song
