When you scream aloud, Heads down heads down  
That's when I plan to rise up rise up  
When you scream aloud, we're doomed we're doomed  
That's when I plan to prove my self to you

I've never got the simple thrill, solidly  
I've never seen the point in you killing you  
I've always backed my words with what I do  
I always buy my time to cover you

I'll be my super hero number one  
I'll save me from myself

Rise, I Rise

Above the sun in the sky  
Above that look in your eyes  
My Pride!

So Sister you know me  
Sister you know me  
Mother you made me  
Lover what do you offer me  
Father teach me, brother protect  
Lover what do you have for me

I'll be my super hero number one  
I'll save me from myself  
I'll be you're superhero number one  
I'll save you, I'll save!

Rise, I Rise

Above the sun in the sky  
Above that look in your eyes  
My Pride!

I'll Save you (x3)

Your eyes deny a life that dulls your pride  
Your eyes they hide through me you'll heal with time

GO!

When you scream aloud, Heads down heads down  
That's when I plan to rise up rise up  
When you scream aloud, we're doomed we're doomed  
That's when I plan to prove my self to you

I'll be my super hero number one  
I'll save me from myself  
I'll be you're superhero number one  
I'll save you, I'll save you!

Rise, I Rise

Upon the sun in the sky  
Well from the look in your eyes  
My Pride!

I'll be your superhero number one  
Rise, I Rise  
I'll save you from my self  
[Upon the sun in the sky]  
I'll be my super hero number one, I'll save it  
Rise, I Rise  
My pride!
