

## Soft Cell "Together Alone"

Visit "[Together Alone](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Another day melts into the evening

I sit alone and watch the stars

Remembering times

I think of the past  
Here in my isolation

In the solitary situation

Reality hurts

Where memories last  
When you whisper my name in the silence

You stop my heart with a touch of violence

We'll always be

Together alone  
You're a breath in my ear  
You're a word in my mind  
I'm here on my own

Just two of a kind

Together alone

Together alone  
You share in my deepest secrets  
You're here in my darkest moment

Together alone  
Together alone  
You know what I'm always thinking

You lift my mood when I'm sinking

Together alone

Together alone

When you're here in my arms  
I'm dreaming of you  
Life will end when I stop

Believing in you

Together alone

Together alone  
You're like a shadow

At the edge of my eye

Like a chill in the air

Like a light in the sky

Like the endless peace after we die  
You're a breath in my ear

You're a word in my mind

I'm here on my own

Just two of a kind

Together alone

Together alone  
I don't need anybody

I don't want anybody

I'm on my own

Together alone  
Nobody can understand us

Nobody to make demands on us

Together alone

Together alone  
And as the bombs are falling  
I hear a voice that's calling  
Together alone

Together alone  
You're a breath in my ear

You're a word in my mind

I'm here on my own

Just two of a kind  
Together alone  
Together alone  
Are you listening to me now?  
Are you listening to me now?

Together alone

Together alone  
You're deep in my heart now  
You're deep in my soul now  
Together alone

Forever alone  
You're a breath in my ear  
You're a word in my mind  
I'm here on my own

Just two of a kind  
Together alone  
Together alone  
Together alone  
Forever alone

Are you listening to me now?

Are you listening to me now?

Together alone  
Forever alone  
Together alone

Together alone  
Are you listening to me now?  
Are you listening to me now?
