"We Will Be Part Of The End"

Visit "[We Will Be Part Of The End](#)" on MotoLyrics.com

Because of the idiots who want to
Impose to the rest the globalization
Different people are fighting now
Millions are dying without know
This situation always ends
With a loser and a defeated

Why the sun
Doesn't shine like yesterday
Surely because of the cloud
Made of toxic gas

The radiation
Eats away my skin
Just a part of the end
That's all what I am

The evil northern empire
Supposing to install democracy
To a destroyed country which
Their population now is dead
So many inventions which came up
Because of the evolution
The last one everybody know
Will be the selfdestruction!

Why the sun
Doesn't shine like yesterday
Surely because of the cloud
Made of toxic gas

The radiation
Eats away my skin
Just a part of the end
That's all what we are
